ABOUT US

FOR QUALITY SERVICE AND PROFESSIONAL WORK

*Midfix was established in 2006. Originally the company saw an opportunity in the fixing of reinforcement as there where a big shortage of competent fixers. From there Midfix evolved in to a construction company that specialize in raft foundations and in-situ concrete slabs.*

*The company has four years' experience in concrete construction and the director seven years experience in concrete design with a national diploma in civil engineering. We are experienced in working on construction sites that require the highest safety standards including a housing project for Sasol.*

*We offer great service, competent and well trained personnel and pride ourselves on keeping to the schedule . Midfix has on site management to ensure a high standard of work.*

*Midfix is an established company which had many successful building projects over the last few years.*

*We pride ourselves in our product, service and quality of our work.*

*Our services include the following:*

*Raft Foundations*

*Concrete Slabs*

*Building and Alterations*

*For Quality service and professional work, please give us a call for a quote*
